

Fred Betman greets the since retired General Schwarzkopf at their Alumni Five Star event.

Our Agency goal is to provide the best prices and products available to businesses and consumers anywhere in the world as well as in the State of New Jersey.

We take pride in offering creative solutions for businesses and consumers looking for better alternatives to the increasing costs of employee benefits and consumer health insurance.

Discount products are available to businesses and consumers. These plans include affordable medical, dental, vision, and prescription discounted fees.

The discount plans are not insurance. These plans provide services (excluding hospitals) at discounted fees.

Our discount products are available at www.aHealthBroker.com.
